A GROWING NEWSPAPER IN A GROWING COMMUNITY

Volume 60, Number 52 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — 10c per copy — Thursday, December 24, 1953

FOR GREATER SAFETY . . . Carol Shapanski takes the wheel of the dual control driver education car at Campbell Union High School, while instructor Leonard Scroggins keeps a sharp lookout. Observers on this trip are (back seat) Patty Rose and Pete Mannina. The driver education course at CUHS requires a minimum of 30 hours with six hours behind the wheel and six to eighteen hours as an observer in the car. Students who successfully pass the course receive a student license, recognized by the state.

CUHS SAFE DRIVING INSTRUCTION REDUCES TRAFFIC PROBLEM HERE

Any city with a teenage population as large as that of Campbell is faced with a potential source of danger in the reckless driving of irresponsible youngsters. So says Campbell Police Chief, Robert J. Locke, who adds that the city is relatively from teenage traffic problems, due in large measure, he says, to the driving instruction program offered at Campbell Union High School, under the supervision of superintendent Laurance J. Hill.

Campbell High School is the first school in the county to offer a full semester of class work and actual driving in a dual-control car, according to county superintendent of schools Dr. O. S. Hubbard. The local program offers full-time instruction in the classroom and in the car under actual driving conditions, under four full-time teachers, Fred Gugat, Ken Duddridge, Leonard Scroggins, and Junior Morgan.

Classroom study in a specially equipped room includes tests for speed and depth perception, emergency reaction tests, eyesight, including tests for stereoscopic vision, and other mechanical devices for testing the physical and mental capabilities of student drivers, a visit to the school revealed.

Separate cards are filed for every driver-student on which are made comments by the instructor on individual driving habits.

Upon successful completion of the driver education course, which includes a minimum of 30 hours with six hours behind the wheel and six to eighteen hours as an observer in the car, the student receives a student license fully accredited by the state.

CUHS co-ordinator, George Kemp, said the high school program started in 1946-47 school years, with 799 students enrolled under instructor Melvin Hughs and one car. It has expanded under the sanction of the district superintendent into an important part of the curriculum and has today two dual-control driver education cars. These automobiles are specially equipped Chevrolets, he said, donated by the Bob Coyle Chevrolet Company of San Jose, who replaces them with new ones every year. The school, with State funds apportioned under the Stanley Bill, pays for gas and maintenance, although Coyle gives new car service, Kemp said.

Hill said the program would not be possible without the use of these cars, and said Coyle was to be commended for his service to county schools. Hill said Coyle has loaned fourteen automobiles to the high schools in the county since 1949.

The driving student at CUHS besides learning the mechanical operation of the vehicle acquires skill in up and down hill driving, parking up and down hill, as well as handling a stalled automobile on an uphill grade, instructors pointed out. Other techniques learned include parallel and angle parking, driving on the highway, where faulty driving habits are observed and corrected, and driving under adverse conditions which includes instruction in using measures to avoid fogged windows, regaining control of the car in skids, and driving in fog, mud, or sand, they said.

End result of the program here, according to the police, parents of student drivers, and the citizenry at large is to place more socially alert and qualified teen-age drivers on the highway.

Campbell Growth Is Indicated By Telephone Users

5665 Telephones Here; 853% Increase In Eight Years

Pacific Telephone has spent more than $1,271,000 on new facilities in Campbell since 1945.

Citing the company's construction program as giving a good indication of Campbell's postwar economic development, W. E. Williams, telephone company district manager, reports the present total investment here is past $1,420,000.

This reflects an increase of 853% in the eight year period.

Williams stated that a further indication of the growth of Campbell is the fact that local residents now place a record high of more than 21,600 calls a day. Williams said that during each business day, Campbell residents place about 18,080 more calls than were handled during an average day in 1945, an increase of 513% during this period.

Total telephones in the exchange have also grown during the postwar period. The company has installed 4760 telephones since 1945 to bring the present number to 5665.

Williams stated that the enlargement of Pacific Telephone's facilities to meet Campbell's population and economic growth is still going on. Underway are three telephone line extension jobs costing an additional $123,000 to provide more facilities for subscribers here.

SANTA'S PET . . . Santa Claus appeared in Campbell Tuesday noon, under the sponsorship of the Campbell Junior Chamber of Commerce and the Campbell merchants to distribute ice cream, candy, and gift stockings filled with candy and prizes to approximately 516 youngsters who showed up. Price of admission to the theater was one can of food which will be collected by the JayCees, packaged and distributed to needy families of the Campbell-Cambrian Park area. Santa is shown here on the stage of the theater having a talk with little Roddy Lantzen, who with both hands full, beams at the small fry theater audience.

New Traffic Ordinance Lists Boulevard Stops

An additional annexation request was returned to the applicants at the City Council meeting Monday night because it contained a condition, councilmen alleged, that was not to the best interests of the city.

The petition signed by A. G. Warning sought annexation to the city of a parcel of land 640 feet by 315 feet with a proposed 60 foot street right of way fronting Campbell avenue. Parcel of land is located near the Campbell Water Company corporation yard on East Campbell avenue.

Warning asked permission to withdraw his annexation request if the property was not subdivided. If the subdivision map was not approved, Warning indicated that he would protest the annexation at the public hearing.

City of Campbell adopted its 44th ordinance at the Council meeting Monday night amending the city's traffic ordinance. The new ordinance, besides changing the names of city streets, designates stop intersections, and through streets.

Giles Way was officially changed to "Cherry Lane", and Santa Clara Los Gatos road as it runs through the Campbell city limits was officially designated "Winchester Road" in the ordinance adopted Monday.

The council indicated Monday they would take final action at the next council meeting on the matter of Dr. Richard Weldon's animal clinic on the San Jose-Los Gatos road near Hamilton. Weldon was present Monday night and said his building was nearing completion and ready for inspection. It was agreed that all councilmen and the city planning consultant make the inspection to see if it complied with the conditions recommended by the planning consultant, and the city council.

City Engineer Mark E. Thomas was advised to contact the county building inspector to determine if final inspection had been made on the N. Nimerick's building on Winchester road. If not, councilmen agreed to request a delay so as to contact Nimerick and ask that the $490 deposit be made with the city in accordance with the terms of his building permit. Deposit was thought necessary, according to the engineer, to insure proper installation of curbs and gutters.

Thomas reported that he had received a warrant from the State of California for $2,310 for one half of the Hamilton Milton paving project. Council accepted the funds and directed that they be deposited to the city's general fund.

Street signs conforming with the type now placed at intersections in the city will be erected in the Kuehnis Estates subdivision. Thomas said the subdividers had agreed to erect the signs in place of monument boxes at his suggestion. Councilmen approved the action.

Joseph A. Bonacina, the city attorney, reported on the procedure for setting up a retirement system for the employees of the city of Campbell at the meeting Monday.

Police Chief Robert J. Locke was authorized to interview and hire additional guards for city street intersections.

MISS KATHY JONES HONORED HERE AT A BRIDAL SHOWER

A surprise bridal shower was given Miss Kathy Jones by Joline Sweet and Virginia Howard at the LBen Howard home, 18 North Milton avenue here Saturday evening. The bride-elect is the daughter of Mr. and Mrs. Leland Jones of Kenneth Avenue, and is employed by the Pacific Telephone and Telegraph Company. She was graduated from the Campbell Union High School in 1951 and later attended San Jose State College.

The bridal shower Saturday was in keeping with the Christmas season. There were red berries and a big snow man on the table, the snowman's arms being extended toward two little figurines representing the bride and groom. Bridal gifts were placed under the Christmas tree.

Refreshments were of lime ice, assorted cookies and open sandwiches.

Kathy is to be united in wedlock on January 23, 1954 to Mr. Larry Ringer of Tacoma, Washington, presently stationed at Moffett Field. The ceremony is to be at the Campbell Methodist Church.

WINCHESTER WIDENING IS SOUGHT

Widening of Winchester Avenue in the unincorporated area from Stevens Creek Road to the Los Gatos city limits is sought of the Santa Clara County supervisors in a resolution filed by the Los Gatos town council.

The resolution contends that the road is becoming increasingly congested because of new school construction and the increasing number of new homes fringing it. Referred to as the Los Gatos-Santa Clara road, whereas the City of Campbell has designated it as Winchester Road as it passes the Campbell Union high school and the Campbell Union Grammar school, the resolution states the road is now one of the major traffic arteries used daily by people coming to and from work. It further alleges that the road in its entirety is narrow and dangerous and that the southerly portion is particularly winding and hazardous for both motorists and pedestrians. It seeks that the road between the northerly limits of Los Gatos and Vasona junction be straightened.

A request made in April, 1951, by the council requested that the Supervisors have dangerous curves eliminated between San Tomas and Los Gatos, but that no action had been taken by the county board.

CAMBRIAN, UNION TEAMS TANGLE

Local Motorists Involved In Minor Highway Crashes

According to California Highway Patrol three Campbell motorists were involved in minor accidents on County roads this weekend.

Fred Charles Meyers, 55 of 71 Peggy Avenue, Campbell, was unhurt but his car was damaged when it struck a soft shoulder on the Guadalope Road near Shannon, and rolled down the embankmen, at 1 a. m. Sunday.

Two Campbell drivers were involved in a broadside collision, according to CHP, on the San Jose-Los Gatos Road at Union Avenue, Sunday at 7:23 p. m. Drivers of the vehicles which collided were: Vern Leslie Smith, 52, who gave his address as General delivery, Campbell, and Gerald Hodges, of 596 Stonehurst avenue, Campbell Neither were injured.

A similar accident occurred at Winchester and Payne avenues at 7:20 a. m. Saturday when vehicles driven by Ulysses Davis, 35, of Box 324, Campbell and Antone Garcia, of 137 Olive Street, Los Gatos, collided. There were no injuries.

Medical Building Work To Start

Contractor Robert A. Fletscher of Campbell low bidder on the proposed $50,000 Cambrian Professional building at Union avenue, Cambrian corners, said construcon the project is expected to begin next week, and that they should be well under way by the first of January.

Dr. C. G. Green of Salt Lake City, Utah, said Fletscher won the contract with a low bid of $33,849, for the building which will provide offices for three doctors and two dentists.

Green said he was now in the midst of screening applicants who desire leases in the new building.

Air Raid Test To Be Held Here Next Monday

Air raid warning sirens will sound in Campbell and throughout the state Monday to test sound coverage, in the second in a series of statewide tests over a period of six months, Campbell Fire Chief Jack B. Scott said yesterday.

The test will consist of a three minute blast on Campbell's two sirens, one atop Glenn's Service Station at the intersection of Campbell avenue and Winchester road, and one at the Fire House on Central avenue. Following the three minute blast there will be a two-minute silent period before the three on-minute blasts signalling the all-clear is sounded, Scott said.

Civil defense officials emphasized that the public will not be required to participate in the test that is designed mainly to check range of warning signals and time consumed in flashing warning messages to various cities and county areas.

Scott reported an approximate fifty percent coverage on the last test to state civilian defenst officials, he said.

Burbank Soon To Have Postoffice

A branch postoffice for the Burbank district is to be set up in a new $60,000 building to be erected at 1888 West San Carlos street, according to Stephen Dorcich who said he had received word from Ormonde Kieb, assistant postmaster general in Washington, that his bid had been accepted. The structure is to have two stores in it besides the postoffice. It is to have 5000 square feet of floor space and will be of tilt-up concrete slab and stucco construction.

NEW BIKE SHOP ON CAMPBELL AVE.

Steve O'Connor, of former six-day bicycle riding fame, and Mrs. Cloelia Riordan of 109 Shelley Avenue have opened a bicycle shop at 225 A Campbell avenue at the former location of Lassley's Radio Shop.

O'Connor recently owned a large shop in San Francisco and during the Ice Follies, was in charge of maintenance and repairs of all two-wheeled equipment used by the show.

O'Connor is well-known in bicycling circles for his active participation in distance bike races. His scrapbook reveals clippings from major newspapers in the country of events in which he has participated. One closest to this area probably, concerns the 10,000 mile, six day race held in San Francisco, in 1934, in which O'Connor's team placed third.

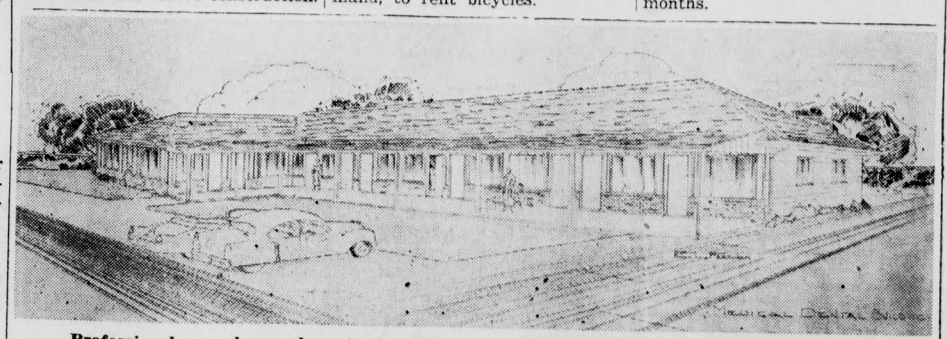
In the Campbell shop, O'Connor and Mrs. Riordan plan to sell, repair, and if there is enough demand, to rent bicycles.

Martin S. Walsh Is Speaker At CUHS Law Class

Martin S. Walsh, Campbell attorney, and former city police judge, was a guest speaker at the Campbell Union High School senior law class of C. P. Klassen, Thursday. Walsh spoke on "General Law of Contracts" and emphasized aspects of contracts which could be negotiated by minors.

Monday of this week, Walsh was an invited guest at a Christmas program at Agnew State Hospital at which he showed motion pictures of vacation trips he has made throughout the country and in the Hawaiian Islands.

The popular attorney has also been a guest of several service clubs both in Campbell and in San Joose during the past several months.



Professional . . . shown above is the $50-000 professional building proposed to be constructed at the corner of Cambrian Drive near the San Jose-Los Gatos Road. The single story, ranch style, hip-roof, frame, glass, and stucco building was designed by Campbell architect, Robert Ferguson.

Campbell Contractor, Robert A. Fletscher's low bid of $33,849 was accepted by owner Dr. C. G. Green of Salt Lake City, Utah, who said construction should start within the next two weeks.

Land for the building was purchased from Joe Agostinho. Henry Jewell handled the real estate transaction.

Funeral services will be at 2 o'clock this afternoon at Darling-Fischer-Krug Memorial Chapel for Mrs. Frances Cornish of 962 Moorpark who died December 21 in a San Jose Hospital after a short illness.

Engineers Build Concrete Bridge At Wildcat Creek

A county construction crew was busy this week repairing the plank bridge over Wildcat Creek, on Lovell avenue between Harriet and residents of the area and the Board of Trustees of Moreland School District.

Seventy-five residents of the vicinity recently requested action in a petition to the County Board of Supervisors to correct the unsafe condition of the bridge which they said was rotting away. Moreland School Board of Trustees also have protested that the bridge was unsafe and for the past six months have refused to allow school busses to cross it.

Residents reported Monday however, that a crew of workmen were busy putting in two six inch corrugated steel pipes to care for creek overflow over which county engineers said a substantial concrete bridge would be constructed.

CHRISTMAS CAROLS LIVE FOREVER

Along the avenue, from the churches, from a sound box back of the Nativity scene on the high school grounds, there have been carols for the last week, in keeping with the Christmas spirit.

The disc jockeys are featuring something about "Santa Baby" this year. Last year it was "I Saw Mama Kissing Santa Claus," and the year before that it was "All I Want for Christmas Is My Two Front Teeth."

Most popular Christmas song of all today continues to be "Silent Night." This beautiful old carol, and all the others are firmly entrenched in the hearts of young and old. In millions of American homes, the real hope and meaning of Christmas are as deeply felt and cherished as at any time in the past.

The frivolity and gaiety of the season are with us, too, as they should be. But underlying it all is the renewed hope for "peace on earth, good will to men" which we have shared with men of good will the world over since the Christ Child was born.

TEACHING YOUTH TO DRIVE

A full semester course in safe driving which is now being conducted at the Campbell Union High School has much merit, and is bound to have results. One has only to look at the newspaper stories of highway accidents to know that a vast majority of those involved are of the younger set who are ever willing to take that extra chance.

The course is intended to place more socially alert and better qualified young drivers on the highways. So many of us as motorists, become aware only of our own driving habits that we fail to consider conditions under which other motorists might be driving. It takes but a split second to find out and then it may be too late. If results prove that fewer of our high school students are involved in traffic accidents, then the course is well worth while. The value of the course may continue years after graduation which makes it of added value.

ADLAI'S FOUR FEARS

At a rally in Philadelphia recently, Adlai Stevenson averred that the country is beset by fears. The four freedoms, he declared, have been replaced by four fears — "fear of depression, fear of communism, fear of ourselves, fear of freedom itself."

Taking Adlai's fears in sequence, it would seem that perhaps a certain amount of intelligent fear of depression might be a good thing. If a few people had feared that the stock market might not go up indefinitely in 1929, the last depression might have been avoided.

With regard to communism, it would seem that only a moron or a sympathizer would fail to be prudently fearful of an alien power that since the end of the recent war has enslaved the people of Estonia, Lithuania, Latvia, Poland, Czechoslovakia, Roumania, Bulgaria, Hungary, Albania, Yugoslavia and China, as humbled the United Nations in Korea.

As for Adlai's remaining two fears, we really don't know any Americans who are afraid of themselves or afraid of freedom. What we do fear is that Adlai's speech was rather a dud.

WELL SAID, GOVERNOR!

"We shall not have any more new taxes in California if I can help it." That was Governor Goodwin J. Knight speaking recently, and his words were music to the ears of the most tax-ridden folk in all these United States.

Calling attention to the huge reserves that have been accumulated in Sacramento — the so-called "rainy day" funds totaling approximately 158 million dollars — the Governor said:

"I will not ask the people of California for an additional nickel so long as surplus monies rest in our vault. I don't think our citizens should be taxed, and taxed, and taxed so that we can keep up huge reserves. It is their money, and if anybody is going to put it in the bank, it should be put there by those who earned it."

The Governor is right, of course. No government has a right to tax people for more than is sufficient to pay current operations. In its own way, surplus financing is as unsound as deficit financing, for it is an invitation to pet project spending, unnecessary appropriations and outright raids by pressure groups.

Most of us want to save for a rainy-day. But we want to put our savings in our own bank account, not the State of California's.

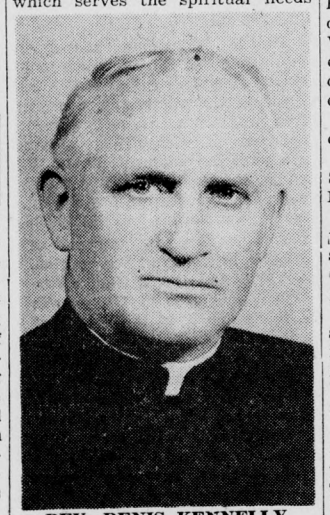
Profile of The Week

This column attempts to acquaint Campbell residents with the background of most of its leading citizens, to make for a greater interest in the activities of the Campbell area.

Pictures from the files of the Campbell Press will be drawn, by lot, for the first of the articles. When this supply is exhausted, pictures of newer residents will be taken, to run in conjunction with stories.

The story of the organization and recent mushroom growth of St. Lucy's parish in Campbell which serves the spiritual needs



REV. DENIS KENNELLY

of nearly 1,000 families and which operates a school which is to accommodate more than 300 children, is the story of its first and only pastor, the Rev. Denis Kennelly.

A half-dozen men's and women's clubs and lodges, which Rev. Kennelly helped organize, today actively promote spiritual and material benefits to the parish.

His organizational ability and leadership became apparent last year when he called upon parishioners to build a school. Over $100,000 was contributed to the structure just completed on Kennedy and Whitehall streets.

Father Kennelly was ordained in Carlow, Ireland, in 1928. Shortly afterwards he came to San Francisco and was assigned to St. Joseph's Church in Berkeley. After two years at St. Joseph's Father Kennelly was given an important post at the Star of the Sea Church in San Francisco. He assisted the Rt. Rev. Patrick L. Ryan, who then was vicar general of the San Francisco Archdiocese. With Father Ryan busy with diocese affairs, Father Kennelly was ofter called on to take over the duties of pastor.

Father Kennelly stayed at Star of the Sea for fourteen years.

Following two assignments at Stockton and at Half Moon Bay, Father Kennelly came to Campbell.

With so much to do in a new parish, Father Kennelly had to sacrifice a good deal to accomplish the work. One pleasure he has given up is hunting.

Two vestiges of Nimrod days still are apparent at St. Lucy's rectory, however—a pair of giant setters.

They're Irish (and red-haired), of course.

THE SPIRIT OF CHRISTMAS

The good Lord softens the heart of man
At Christmas time for a happy span
The wild world forgets all cold reason
Glorified by Love's perfect season.

The rules we live by change
To new ideas, sweet and strange.
Cheery bells, from high church steeples,
Sound joyous refrains to all of the peoples.

Of the happy Season with never a tear
To all of mankind gathered here
Then there comes to the listening ear
The sound of a sleigh and tiny hoofs
Dashing and clattering over the roof.

Of their hearts: Now their eyes see
What was hidden by practicability.
The beauty of a radiant tree
The starlit Holy Night.
Soft glow of candlelight.

New faith in many shining faces
With joy ruling in some strange places,
Instead of getting, people are giving,
Is that the secret of happy living?

Giving themselves, giving their treasure,
No though of profit, no thought of measure.
Giving from wealth, giving from need,
Giving with no thought of color or creed.

Living as did the Saviour of old,
By the Golden Rule, not the rule of gold.

Brydons Off Again To Australia For Canning Season

The A. E. Brydons of 71 E. Campbell avenue, will have Christmas in Campbell but will celebrate New Year's Day in another continent, if present plans work out.

They will enplane December 28, Mrs. Brydon said, from San Francisco and expect to arrive at Melbourne, Australia, December 31, where Mr. Brydon will supervise canning operations at a Melbourne cannery for the start of the Aussie fruit season, January 5.

The Brydons plan to visit their daughter, the present Mrs. Roy Ogren, in Honolulu, on the first stop of the 9,000 mile journey. From Honolulu, the Campbell couple's itinerary calls for a stop at the Canton Islands and Fiji Island before arriving in Sydney, Australia. The final leg begins when they transfer planes to Melbourne, their final destination.

They expect to be gone for the duration of the Australian canning season, probably five months, Mrs. Brydon said, before they return to their home in Campbell.

THE gloriously, happy, Christmas time is here again to inspire our memories, warm our hearts, and reveal to us the deep and rich meaning of life. We rejoice in the fact that we have a part in the kindly, mellow atmosphere which is the Christmas Spirit. We turn aside from our daily cares to share the simple, wholesome joys of home and friends. We think less about ourselves and more about others and that is the spirit of Christmas.

Decorated Homes Show Increase In Campbell Area

With an increasing number of Christmas decorations among Campbell homes this year, steps may be taken next year to have a contest for the best decorated home, according to civic minded leaders today.

A community tree was set up in Cambrian Park and in that area numerous homes were decorated. At 726 Fewtrell Drive, north of Campbell avenue, the Thomas Monahan home has an outstanding display of interest to children particularly. Santa has a workshop on the porch with three little pixeys at work directed by Santa in a rocking chair. A roof display heralds Santa's arrival as he waves from the chimney.

Christmas Camels Came Originally From California

"Christmas camels, or at least their antecedents, may have come from right here in California," says Dr. Earl S. Herald, program host for "Science in Action".

To back up his contention, Dr. Herald will have as guest scientist, Dr. Donald Savage, of the University of California. Among the "props" they will use are camel skulls dug out of the La Brea tar pits.

On Tuesday next, December 29th, the American Trust Company program will be about fossils and how the past is reconstructed from digging into the earth's surface. The camel, scientists have learned, was actually a New World animal that migrated to the Old World and later completely disappeared here some thousands of years ago.

PEACE OF MIND BEST DEFENSE FOR HEART AILMENTS

New by-laws and a budget of $11,266 for the coming fiscal year were adopted by the board of directors of Santa Clara County Heart Association, among which are Mrs. Dan Clark and Dr. Thomas P. McNiff of Campbell.

Best weapon against heart disease is a changed philosophy of life, replacing fear with knowledge and refusing to be "strung up" by daily pressures and tensions, leaders of the California Heart Association asserted this week before a meeting of the expanded county association board.

Dr. George C. Griffith of Pasadena, president of the State association and Ray B. Wiser of Gridley, state heart board chairman and former president of the State Farm Bureau, urged the development of a large participating membership in the Santa Clara County Heart Association and said that research and the education of people on ways of preventing heart ills are the twin weapons of victory over this "No. 1 health enemy of the nation."

Dr. Thomas L. Blanchard, new county president, opened the meeting an then turned over the gavel to Fred J. Fletcher after Fletcher's election as county board chairman.

Dr. A. J. Monty, past president, was praised for his work in helping to found the county association. Plans were also discussed for the 1954 Heart Fund appeal during the month of February.

CAMBRIAN CLUB MEMBERS ENJOY YULE PROGRAM

The Christmas meeting of the Cambrian Home and School Club was made especially festive by the program offered by the primary grades, members present said.

While one small girl slept peacefully with her dolly, there appeared before the group all the toys she was dreaming of for Christmas.

All interested mothers were urged to help in organizing a Band Mother's Group to help and encourage music work in the school.

The January meeting of the Home and School Club will center around a special civilian defense speaker, spokesmen said. Hostesses for the day were the seventh and eighth grade mothers.

The next executive board meeting, members said, is to be held Monday, January 4, at 9:30 a. m. at the home of Mrs. Matt Helmbold on Union Avenue.

Francis Fletcher, chaplain to Sir Francis Drake, held the first religious service in the English language on the Pacific Coast, on the shore of Drake's Bay, June 24, 1579.

Mount Davidson, 925 feet, is the highest point in San Francisco.

Health Study To Be Held At Moreland School

A pilot health study program is being inaugurated at Moreland school, under the direction of Dr. Oliver E. Byrd, department head of hygiene at Stanford University. Study is proposed to develop a course of study in health throughout grade schools in the county, Mrs. Gussie M. Baker, principal, said Tuesday.

The program is being sponsored by the County Department of Health and the county superintendent of schools office. Moreland school facilities are to be used for the trial run, Mrs. Baker said.

A survey will be conducted in January by members of the two parent teachers' organizations of Moreland and El Quito Park schools to determine parents' wishes on what subjects should be included in such a program, she said.

Christmas Rush About Over At Local Postoffice

Campbell Postmaster Ira Grim reports the big Christmas rush is about over, but business was really booming this past week, as the 18 regular members of the Postoffice staff, aided by an additional 18 employees for the holiday season handled a record volume for the Campbell station.

The regular members of the Post office staff were kept busy every night this past week till midnight, Grim said, processing 34,000 cards and letters a day for the past ten days, aside from an unusually heavy volume of outgoing and incoming parcel post and other bulk mail.

Grim said mail receipts for this month alone, amounted to more than $3,000 over the sales for December last year. Total receipts for the year, Grim reported, is expected to be well over the $70,000 mark, a $12,000 increase over sales for 1952. Sunday Service For Methodists Announced Here

Morning services in the First Methodist Church on December 27th will continue the Christmas theme. The Rev. Herbert W. Neale will preach on the theme "The Road Back" at both the 9:00 and 11:15 services. This sermon will discover how the Christmas Spirit can be kept through the whole year. The youth and senior choirs under the direction of Richard Gordon will sing Christmas music.

At the 9:00 o'clock Service newly elected officers of the Wesleyan Service Guild will be installed. These officers are: Mrs. Louis Brandon, president; Miss Alleen Cowdery, vice-president; Mrs. Jack Matthewson, recording secretary; Mrs. Dorothy Jones, promotion secretary; Mrs. Frank Blaine, treasurer.

Congregational Church Notes

A Christmas eve service of carols, anthems by the choir, and candle-lighting will be held at the Congregational Church of Campbell, 49 North Central Ave., on Thursday evening from 11:00 P. M. to midnight. The service will include another Christmas fantasy by the minister, Corwin H. Olds, and refreshments will be served afterward. This service has become a tradition of many years standing in the Congregational Church, and is very popular. It will be open to all who will come.

There will be one service Sunday, December 27 at 10:30 a. m.

The potted poinsettias, decorating the church for the December 20th services, were presented to various shut-in members of the church.

Christmas Rites Held At St. Lucy's Catholic Church

Christmas Services at St. Lucy's Catholic Church on Rincon and 3rd Sts. will be in charge of the Rev. G. Flynn, S. J., assisted by the Rev. C. O'Mara, S. J. and the Rev. J. Marcuilionis, in the absence of Rev. D. Kennelly. Father Kennelly is recovering satisfactorily from a recent operation at St. Mary's hospital in San Francisco. Confessions will be held from 3:30 until 10:00 p. m. on Christmas Eve and a High Mass will be sung at midnight. The morning Masses will be at 7:00, 8:00, 9:00, 10:00, (High) 11:00 and 12:15.

Christmas Eve Candle Service For Methodists

On Christmas Eve at 11:00 P. M. the First Methodist Church of Campbell will conduct a traditional candlelighting service. The Reverend Herbert W. Neale will tell an old Christmas story by Henry Van Dyke called "The First Christmas Tree".

Under the direction of Richard Gordon, Minister of Music, the youth and senior choirs will sing several carol-anthems. Many carols will be sung by the congregation and the service will conclude with the lighting of the candles and the singing of "Silent Night" to welcome the New-Born King.

Glenn Gibson of Fairbanks, Alaska visited the W. L. Cleveland home last week.

Gibson is a friend of Mr. and Mrs. Ray Phariss Jr. former Campbell residents, who now live in Alaska. Phariss is serving with the U. S. Air Force and Pauline works for an Alaskan newspaper. Both Mr. and Mrs. Phariss said they expect to return to Campbell in January. Gibson reported Alaskan weather at 30 below zero.

Christian Science Lesson-Sermon

"Christian Science" is the subject of the Lesson-Sermon that will be head in Christian Science Society, Country Women's Club House, on Sunday, December 27. Enlightening statements that make up the sermon will be read from the Bible and from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

Among the citations from the Bible is this instruction by Jesus to his followers: "And when he had called unto him his twelve disciples, he gave them power against unclean spirits, to cast them out, and to heal all manner of sickness and all manner of disease" (Matthew 10:1).

Science and Health: "Christian Science brings to the body the sunlight of Truth which invigorates and purifies . . . The effect of this Science is to stir the human mind to a change of base, on which it may yield to the harmony of the divine Mind" (p 162).
